UCIT AMUNDI MSCI WORLD CLIMATE PARIS ALIGNED PAB UMWELTZEICHEN UCITS ETF DR

1. Strategy used:

The Fund has been classified as an Article 8 fund pursuant to Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the “Disclosure Regulation”). Information on environmental and social characteristics is appended to this prospectus.

The principal adverse impacts of investment decisions (within the meaning of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (the “Disclosure Regulation”)) are the material (or likely to be material) negative effects on sustainability factors that are caused or aggravated by or directly linked to investment decisions. Annex 1 of the Delegated Regulation to the Disclosure Regulation lists the principal adverse impact indicators.

The investment strategy takes into account the mandatory principal adverse impacts in Annex 1 of the Delegated Regulation via a combination of exclusions (sector and standards-based), the integration of ESG ratings into the investment process, engagement activities and voting policies.

More detailed information on the principal adverse impacts is included in the Asset Manager's ESG regulatory statement and is available on its website: www.amundi.com.

In accordance with its objective and investment policy, the Fund may invest in an economic activity that contributes to an environmental objective within the meaning of Article 5 of the Taxonomy Regulation.

As such, the Asset Manager expects the Fund to be able to partially invest in economic activities that qualify as environmentally sustainable within the meaning of Articles 3 and 9 of the Taxonomy Regulation. However, the Fund does not currently make any commitment to a minimum proportion.

The Fund is a passively managed fund whose objective is to replicate the performance of the MSCI World Climate Change Paris Aligned Low Carbon Select Strategy Index using a method that directly replicates the MSCI World Climate Change Paris Aligned Low Carbon Select Strategy Index, and which consists of investing in the financial securities comprising this index in almost identical proportions.

In addition, the Fund incorporates sustainability factors into its investment process. Amundi applies a Responsible Investment Policy which consists of a policy of targeted exclusions based on the investment strategy and an ESG rating system made available to the portfolio management team (details of this policy can be found in Amundi's Responsible Investment Policy available at www.amundi.fr).

The Fund may use forward financial instruments for hedging and/or exposure purposes.

The Fund will comply with the investment rules set forth in Articles R214-21, R214-22, and R214-23 of the French Monetary and Financial Code.

The Fund's assets, consisting of the directly-held assets described in the “Assets used” section, comply with the provisions of Article R214-21 of the French Monetary and Financial Code.

The Fund's exposure to the index may benefit from the investment limit exemptions applicable to UCITS that replicate an index, as per Article R214-22 of the French Monetary and Financial Code. This article states that the Fund may invest up to 20% of its assets in equities or debt securities issued by the same entity, and that this limit may be increased to 35% for a single issuing entity where justified by exceptional market conditions, particularly on regulated markets in which certain transferable securities or money market instruments are predominant.

2. Assets used (excluding embedded derivatives):

At least 95% of the Fund's assets will be exposed to one or more equity markets within one or more OECD countries, at all times.

UCITS units or shares: None.

3. Derivatives:

Counterparties are selected in accordance with the procedure in effect at Amundi and based on the principle of selecting the best market counterparties.

This involves:

- dual validation of the counterparties by the Head of Amundi Intermédiation and the Amundi Asset Management Credit Committee based on an analysis of their financial and operational profiles (type of activities, governance, reputation, etc.) conducted by a team of credit analysts independent of the portfolio management teams.
- a limited number of financial institutions with which the Fund trades.

Amundi AM draws on the expertise of Amundi Intermédiation as part of a service provided for the selection of counterparties.

Amundi Intermédiation provides Amundi AM with an indicative list of counterparties whose eligibility with respect to counterparty risk has been pre-approved by the Amundi Group's Credit Risk Committee.

This list is then approved by Amundi AM during ad hoc Broker Committee meetings. The purpose of the Broker Committee meetings is to:

- monitor volumes (brokerage transactions in equities and net amount for other products) for each intermediary/counterparty, each type of instrument and each market, where applicable;
- issue an opinion on the quality of service provided by the Amundi Intermédiation trading desk;
- review the brokers and counterparties, and compile a list of them for the upcoming period. Amundi AM may decide to restrict the list or ask for it to be expanded. Any proposal to expand the list of counterparties by Amundi AM, either during or subsequent to a committee meeting, is then resubmitted for analysis and approval by Amundi's Credit Risk Committee.

Meetings of Amundi AM's Broker Committees are attended by the Heads of Portfolio Management or their representatives, the representatives of Amundi Intermédiation's trading desk, an Operations Manager, a Risk Control Manager and a Compliance Manager.
